The Creative Poetic Writing Workshop

Dr. Hamed Soleimanzadeh

Date: June 14th, 2025

Time: 14:00-18:00

Place: KWZ (Room 0.604)

In this workshop, we will first explore the source of catching an idea before delving into the nuances of perception in language. We will discuss the differences between the verbs "to look," "to watch," and "to see" and examine how "to see" can be a gateway to creative and poetic writing. The session will include a practical component using cards and character-based information to engage participants in hands-on exploration.
