

1st Sustainable Food Systems Symposium

Conference Program

17-18 September 2024

Goettingen,
Germany

Organizing Committee: Sukanya Basu, Adriana Bernal-Escobar, Viviane Eckhardt, Ainslee Erhard, Vivien Hülsen, Sophie-Dorothe Lieke, Luisa Müting, Bruno Paz, Nell Richter, Simone Santalucia, Maria Siegmund, Margherita Squarcina.

Scientific Committee: Yasemin Boztuğ, Bernhard Brümmer, Gesa Busch, Liesbeth Colen, Silke Hüttel, Krisztina Kis-Katos, Doris Läßle, Oliver Mußhoff, Tobias Plieninger, Matin Qaim, Achim Spiller, Sebastian Vollmer, Stephan von Cramon-Taubadel, Meike Wollni, Xiaohua Yu.

PREFACE

Global food demand is expected to further increase in the coming decades, due to continued population and income growth. Meeting this demand will require a major transformation of the global food system which is already confronted with multiple challenges. For instance, increasing agricultural output through land clearing and intensification is likely to entail trade-offs between food production, habitat protection, carbon storage, and freshwater supply. At the same time, healthy, nutritious, and environmentally sustainable diets are unaffordable for many, contributing to a growing trend of both undernutrition and overweight, obesity, and associated non-communicable diseases. Furthermore, although a growing segment of consumers is expressing heightened interest in ethical food products, increasing incomes, and population growth have still led to an increased demand for animal-sourced products, significantly contributing to environmental and healthcare costs.

To identify pathways towards more sustainable food production and consumption in the framework of the Sustainable Development Goals (SDGs), the Sustainable Food Systems doctoral program at the University of Göttingen carries out research around the environmental, nutrition/health, and social dimensions of food systems, in collaboration with the International Food Policy Research Institute (IFPRI) and KU Leuven. As part of this program, the first Sustainable Food Systems Symposium will take place on 17-18 September 2024 with several pre-conference workshops held on the 16 of September 2024. The Symposium is dedicated to exploring the dynamic and vital facets of the evolving agri-food landscape from an economics and social science perspective and aims at promoting academics that are in an early stage of their academic career. The two-day event will feature plenary sessions with invited speakers and contributed paper and poster sessions.

VENUES

Paulinerkirche

Heyne-Haus

Papendiek 14

Papendiek 16

Goettingen

Restaurant

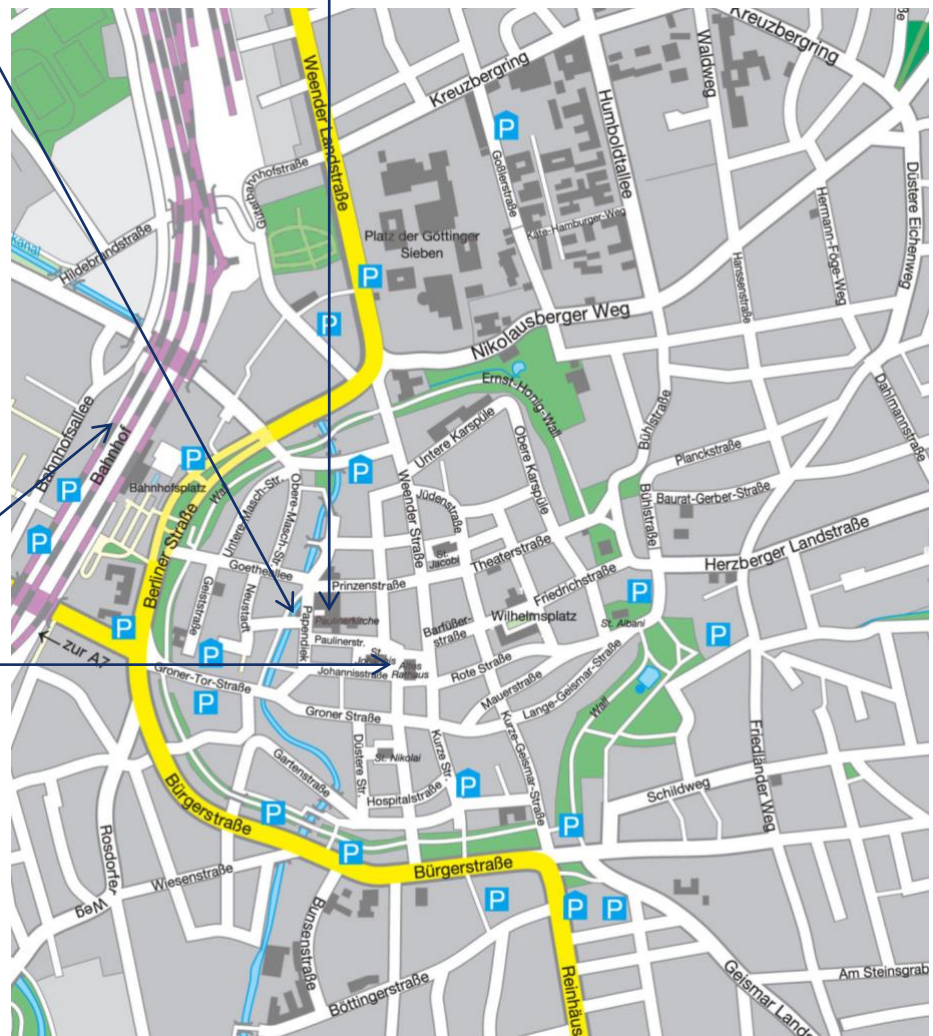

„Bullerjahn“

Markt 9

Goettingen

Paulinerkirche is in walking distance from Göttingen train station

Heyne-Haus is directly opposite Paulinerkirche

The City of Göttingen

Welcome to Göttingen!

The city is characterized by its university, founded in 1737, and numerous other research institutions. Over 40 Nobel Prize winners are associated with the university. Currently, 30,000 people study here in the middle of Germany – that's around a quarter of the city's 120,000 inhabitants.

Göttingen's history stretches back more than 1000 years, and numerous half-timbered houses, churches and other historic buildings still bear witness to this today. Many of these can be explored within walking distance of the conference buildings in Göttingen's city center. For example, the Old Town Hall, which houses the restaurant for the conference dinner on Tuesday, was built in the 13th century.

Göttingen offers a wide and diverse range of cultural activities, but the surrounding area also has a lot to offer. To the east of the city, for example, is the Harz Mountains, the highest mountain range in northern Germany.

Paulinerkirche

Initially, the Pauliner Church was part of a Dominican monastery founded in Göttingen in 1294. It represents an architectural style typical of the mendicant orders. In 1529, in the wake of the Reformation, the first Lutheran services were held in the Pauliner Church, since it was the largest church in town. Between 1542 and 1733, a newly founded secondary school, the so-called Paedagogium, was located in the building of the former monastery.

In 1733, Prince-Elector Georg August of Brunswick-Lüneburg, who, as George II, was also King of Great Britain and Ireland, decided to found a regional university in Göttingen. One year later, in 1734, the university library was set up in a hall belonging to the former monastery. Three years later, the ceremonial opening of Göttingen University took place in the Pauliner Church. The university also had its home in the former monastery, and the Pauliner Church went on to be used as the university church and as a venue for university events.

Hanoverian state minister and curator of Göttingen University Gerlach Adolph von Münchhausen (1688-1770) was a generous supporter of the library. On this basis, the university librarians Johann Matthias Gesner (1691-1761) und Christian Gottlob Heyne (1729-1812) were in a position to acquire a uniquely wide range of research literature. The library soon became famous as well for its liberal lending policies.

The fast-growing number of books repeatedly led to shortages of space, and the library soon spread throughout the whole building. In 1812, the newly-created upper storey of the Pauliner Church became part of the library. Hosting the library's historical holdings, it came to be known as the Historical Hall. In addition to books, busts of famous Göttingen scholars and plaster casts of antique sculptures were put up here. This beautiful combination of Gothic architecture and classicism is documented in many engravings and descriptions, such as in "The Harz Journey" written by Heinrich Heine (1797-1856), who read law at Göttingen University and was an enthusiastic user of its library.

During the Second World War, in 1944, the Pauliner Church was largely destroyed, while most of the library's books survived, having been safely deposited in the vault.

After the War, the number of students at Göttingen University increased dramatically. Following its reconstruction, the Pauliner Church was therefore used as a lecture hall in the 1960s. After that, it housed library catalogues before they were moved to the newly built Central Library in 1992.

From 2000 to 2006, the whole of the Historical Building was refurbished. Careful attention was paid to the reconstruction of the Historical Hall in the Pauliner Church on the basis of historical depictions. After only six months of work, the Historical Hall was re-opened in its former guise on the occasion of the opening of the exhibition "Gutenberg and his impact".

Since then, the Historical Hall has provided a worthy setting for exhibitions as well as for scientific and cultural events.

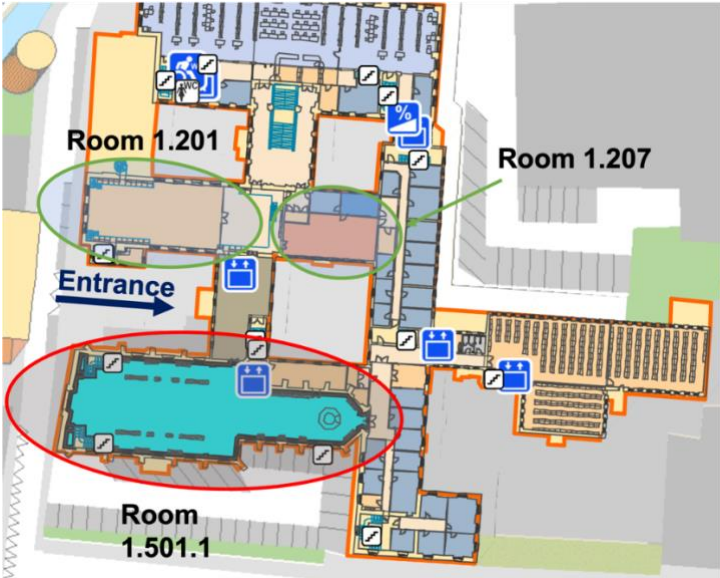

ROOM LOCATIONS

Paulinerkirche

Ground floor: Entrance Hall

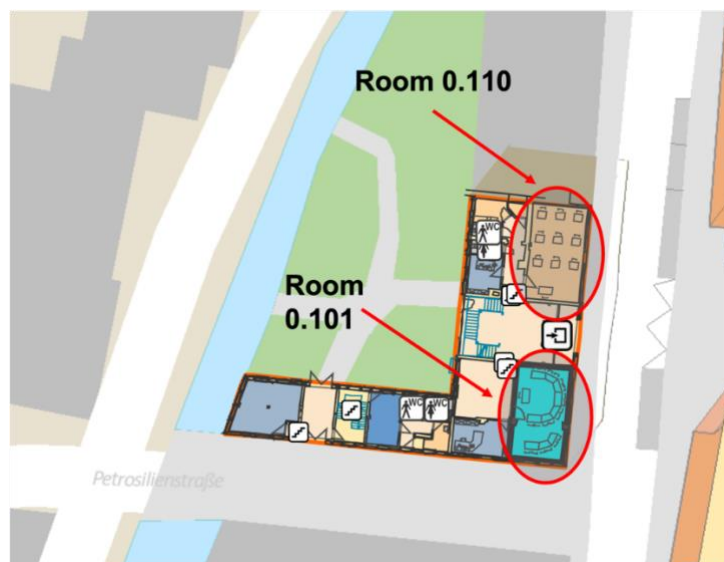

First floor: Rooms 1.201, 1.207 & 1.501.1

Heyne-Haus

Ground Floor: Rooms 0.101 & 0.110

The public transport network map you can find [here](#). More information about the public transport in Göttingen and timetable can be found on the [Homepage of the GöVB](#).

GENERAL INFORMATION FOR PRESENTERS

Oral presentations are planned for 15 minutes, followed by 5 minutes for open questions/discussion. Please bring your presentation on a USB stick and transfer it to the computer in the room before the start of your parallel session. If you don't have a USB stick, you may also send your presentation by e-mail to the chair of your session (the e-mail address will be displayed in each room).

Poster presentations are planned for 3 minutes, followed by 2 minutes for open questions/discussion. Each parallel poster session will also include an additional 30 minutes for an open presentation. Posters will be on display throughout the Symposium so you will be able to attach your poster at any time prior to the start of your parallel poster session. Poster size should be DIN A1 (width: 59.5 cm, height: 84.1 cm).

Program

Contribution List

Final Program – Sustainable Food Systems Symposium

September 17 – 18, 2024

University of Göttingen, Germany

Pre-conference Workshops – Monday 16, 2024			
13:00 – 14:00	Registration – Entrance Hall – Paulinerkirche		
14:00 – 15:30	Room 1.501.1 – Paulinerkirche	Room 1.207 – Paulinerkirche	Room 1.201 – Paulinerkirche
	Workshop #1 Communicating science despite Elon Musk Leader: Dr. Bartosz Bartkowski <i>(Helmholtz Centre for Environmental Research)</i>	Workshop #3 Turn your research into a visual summary and make your publications stand out! Leaders: Lina Buitrago and Beatriz Herrera <i>(Visuals in Science Lab)</i>	Workshop #5 Decolonizing research (Session I) Leader: Dr. Sebastian Garbe <i>(University of Applied Sciences Fulda)</i>
15:30 – 16:00	Coffee break – Lobby 1.202 – Paulinerkirche		
16:00 – 17:30	Room 1.501.1 – Paulinerkirche	Room 1.207 – Paulinerkirche	Room 1.201 – Paulinerkirche
	Workshop #2 The Science-Policy-Plate Nexus: Sustainable Diets and Food Futures Leader: Dr. Rachel Mazac <i>(Stockholm Resilience Center)</i>	Workshop #4 Turn your research into a visual summary and make your publications stand out! Leaders: Lina Buitrago and Beatriz Herrera <i>(Visuals in Science Lab)</i>	Decolonizing research (Session II) Leader: Dr. Sebastian Garbe <i>(University of Applied Sciences Fulda)</i>
End of Pre-conference Workshops			

Day 1 – Tuesday 17, 2024

8:00 – 8:50

Registration – Entrance Hall – Paulinerkirche

8:50 – 10:00

Room 1.501.1 – Paulinerkirche

Opening Ceremony – Welcome address – Plenary Session 1
(Chair: Meike Wollni)

Keynote 1: Rob Vos (Unit Director, Markets, Trade and Institutions, IFPRI)
Options for reducing GHG emissions from agriculture and food systems

Keynote 2: Danielle Resnick (Senior Research Fellow, Development Strategies and Governance, IFPRI)
The Politics and Governance of Food Systems Transformation

10:00 – 10:30

Coffee break – Lobby 1.202 – Paulinerkirche

10:30 – 11:50

Parallel Sessions 1

Room 1.501.1 – Paulinerkirche
(Chair: Jonas Stehl)

Room 1.201 – Paulinerkirche
(Chair: Bruno Paz)

Room 1.207 – Paulinerkirche
(Chair: Françoise Umarishavu)

Room 0.110 – Heyne-Haus
(Chair: Vivien Hülsen)

Session 1A | Food Security I

Ifeoluwa Abulude (Justus-Liebig University Giessen) – Food Loss Analysis in Nigeria: A Systematic Literature Review

Kibrom Tadesse Sibhatu (IFAD) – Combining Crop Diversity and Market Access to Promote Dietary Diversity and Food Security: Insights from Smallholder Productivity Promotion Programme in Zambia

Raghav Puri (Cornell University) – Reducing the 'True Cost' of Food-Based Safety Nets: Evidence from India's National Food Program

Session 1B | Climate Change Adaptation and Mitigation

Marlene Wätzold (University of Göttingen) – Smallholder welfare and Weather Extremes: Assessing the Effects of Climate Change Adaptation Measures

Leonard Krapf (University of Göttingen) – Droughts, Agriculture, and the Economy: Time and Place Matter

Thomas Kopp (University of Siegen) – The Effects of Digital Yield Monitoring on Greenhouse Gas Emissions in the US

Steffi Dekegel (UC Louvain) – Economic Performance of Cocoa Agroforestry Systems in Southern Bahia, Brazil

Session 1C | Technology Adoption

Jakob Vincent Latzko (University of Göttingen) – How to Achieve Greener Palm Oil?

Udit Sawhney (University of Passau) – Large Scale Pilot of Low-Cost Soil Tests to Promote Soil Health Management Practices Among Smallholder Farmers in Indonesia

Luisa Müting (University of Göttingen) – How Do Information Channels and Sources Relate to Smallholders' Distinct Forestry Practices?

Juliane Haensch (University of Göttingen) – Impact and Drivers of Informal Water Markets in Irrigation Regions in India

Session 1D | Food Markets and Supply Chains

Anusha De (University of Göttingen) – Buyer Competition and Farm Outcomes in the Modernizing Dairy Sector of Punjab, India

Dagmar Mithöfer (Humboldt-Universität zu Berlin) – Entrepreneurship, Crop Diversification, and Commercialization: Evidence from Small-Scale Farmers in Zambia

Shanjida Sharmin (University of Kassel) – Consumer Attitudes Towards Social Commerce: Insights on Female Entrepreneurs Selling Rice and Shrimp in Bangladesh

Lina Kastens (University of Göttingen) – Trade Policies and the Transmission of International to Domestic Prices

Day 1 – Tuesday 17, 2024

Parallel Sessions 2				
	Room 1.501.1 – Paulinerkirche (Chair: Juliane Haensch)	Room 1.201 – Paulinerkirche (Chair: Jasmin Wehner)	Room 1.207 – Paulinerkirche (Chair: Simone Wahnschafft)	Room 0.110 – Heyne-Haus (Chair: Leonard Krapf)
11:50 – 13:10	<p>Session 2A Trade-offs and Transformation</p> <p>Maria Luisa Fernandes de Araujo (<i>University of Göttingen</i>) – Unveiling Trade-Offs: Organic Farming and Greenhouse Gas Emissions in Brazil</p> <p>Tobias Hellmundt (<i>University of Göttingen</i>) – Land-Use Transformation and Conflict: The Effects of Oil Palm Expansion in Indonesia</p> <p>Wisnu Harto Adiwijoyo (<i>University of Göttingen</i>) – Modern Solutions to Age-Old Problems: Exploring the Impact of Online Food Delivery, Market Access, and Poverty Alleviation in Indonesia</p> <p>Verena Preusse (<i>University of Göttingen</i>) – Urbanisation and Adoption of Sustainable Agricultural Practices in the Rural-Urban Interface of Bangalore, India</p>	<p>Session 2B Finance and Insurance</p> <p>Berber Kramer (<i>IFPRI</i>) – Digital Innovations to Increase Impacts of Agricultural Insurance: Evidence from a Randomized Trial in Kenya</p> <p>Francisco Ceballos (<i>IFPRI</i>) – Picture-Based Crop Insurance: A Randomized Control Trial Evaluating the Impacts of Using Smartphone Pictures for Claims Verification in India</p> <p>Subhransu Pattnaik (<i>IFPRI</i>) – Impacts of an Innovative Credit-Insurance Bundle for Landless Farmers: Evidence from a Cluster Randomized Trial in Odisha, India</p> <p>Katia Covarrubias (<i>FAO</i>) – Comparing Living Income Methods: An Application to Cameroon’s Cocoa Farmers</p>	<p>Session 2C Traditional and Alternative Sources of Protein</p> <p>Sophie-Dorothe Lieke (<i>University of Göttingen</i>) – Do Ingredients Matter? Exploring Consumer Preference for Abstract vs. Concrete Descriptors of Plant-Based Meat and Dairy Alternatives</p> <p>Brianne Andrea Altmann (<i>University of Kassel</i>) – Bison as a Food Source: The Braiding of Indigenous and Western Food Systems</p> <p>Aline Simonetti (<i>University of Bonn</i>) – Consumer Response to Price Increases for Meat Dishes in University Canteens: Exploring the Impact of Animal Welfare Standards and Subsidy Reduction</p> <p>Berlianti Puteri (<i>University of Kassel</i>) – Choice Experiment Assessments of the Target Consumer Group of Insect-Based Food and Their Preferences for Product Labelling</p>	<p>Session 2D Food Security II</p> <p>Kindah Ibrahim (<i>Czech University of Life Sciences</i>) – Food Security in Times of Conflict: The Vital Role of Humanitarian Aid and Agricultural Development</p> <p>Simon Ndungu Nyokabi (<i>University of Edinburgh</i>) – Seasonality as a Construct in Sustainability and Food Security Discourse: The Case of Smallholder Agricultural Production in Kenya</p> <p>Vivien Hülsen (<i>University of Göttingen</i>) – Urbanization and Intra-Household Dietary Quality: Insights from Malawi</p> <p>Kenneth Harttgen (<i>ETH Zürich</i>) – Estimating Spatial Patterns of Food Security Within Sub-Saharan African Countries</p>
13:10 – 14:10	Lunch – Lobby 0.216 – Paulinerkirche			
14:10 – 15:10	Room 1.501.1 – Paulinerkirche			
	<p>Plenary Session 2 (Chair: Yasemin Boztug)</p> <p>Keynote 3: Klaus Grunert (<i>Professor, Department of Management, Aarhus University</i>) Hedonic reward and informational gratification: Perspectives for behavioral change towards a healthier and more sustainable diet</p> <p>Keynote 4: Sanchayan Banerjee (<i>Assistant Professor, Amsterdam Sustainability Institute, Vrije Universiteit Amsterdam</i>) Behavioral and economic policies for sustainable dietary transition</p>			

Parallel Sessions 3				
	Room 1.501.1 – Paulinerkirche (Chair: Petros Mkandawire)	Room 1.201 – Paulinerkirche (Chair: Luisa Müting)	Room 1.207 – Paulinerkirche (Chair: Ainslee Erhard)	Room 0.110 – Heyne-Haus (Chair: Magdalena Pallauf)
15:10 – 16:30	<p>Session 3A Urbanization and Income Constraints to Food</p> <p>Shinuna Gärtner (<i>Technical University Munich</i>) – Exploring the Impact of Urbanisation on Dietary Patterns in Tanzania</p> <p>Adrien Gosselin-Pali (<i>University Clermont Auvergne</i>) – Migration and Nutrition of the Left-Behind Individuals: Evidence from Ghana</p> <p>Jonas Stehl (<i>University of Göttingen</i>) – Healthy diet based poverty lines</p>	<p>Session 3B Production and Labor</p> <p>Ayal Kimhi (<i>Hebrew University</i>) – Adaptation to Humid Heat in Animal Agriculture: The Case of Israeli Dairy Farms</p> <p>Moritz Hartig (<i>University of Göttingen</i>) – Talking about the Weather - Farm-Level Inefficiency and Climate Extremes</p> <p>Katharina Krumbiegel (<i>JRC of the European Commission</i>) – Availability of Household Labour: A Key Determinant of Sustainable Agricultural Practices Use</p> <p>Olayinka Aremu (<i>ETH Zürich</i>) – Farm Size and the Quality and Quantity of Jobs—Insights from Nigeria</p>	<p>Session 3C From Consumer Psychology to Policy Advocacy</p> <p>Arezou Babajani (<i>University of Hohenheim</i>) – Driving Factors of Consumers' Willingness to Pay for Organic Foods in Iran: Insights from a Mixed-Methods Study</p> <p>Sarah Iweala (<i>University of Göttingen</i>) – Emotional Priming for Sustainable Consumption? The Effects of Social Media Content on the Valuation of Chocolate</p> <p>Eyal Ert (<i>Hebrew University</i>) – Insights into Front-of-Package Labeling Efficacy and Consumer Behavior: A Multifaceted Examination Using Eye-Tracking Technology</p> <p>Simone Wahnschafft (<i>University of Göttingen</i>) – How Can Advocates Leverage Power to Advance Comprehensive Regulation on Ultra-Processed Foods? Learning from Advocate Experience in Argentina</p>	<p>Session 3D Climate Change and Nutrition</p> <p>Maxime Roche (<i>Imperial College London</i>) – How Is Climate Fuelling the Thirst for Sweetness? Exploring Drivers and Adaptation</p> <p>Hannah Ameye (<i>University of Bonn</i>) – How Climate Shocks Impact Nutrient Adequacy in Tanzania</p> <p>Vimbainashe Prisca Dembedza (<i>Marondera University</i>) – Towards a Conceptual Framework Linking Climate Change-Induced Natural Disasters and Nutrition Outcomes</p>
16:30 – 17:00	Coffee break – Lobby 0.216 & Lobby 1.202 – Paulinerkirche			

Day 1 – Tuesday 17, 2024

		Parallel Poster Sessions 1	
		Entrance Hall – Paulinerkirche <i>(Chair: Oliver Mußhoff)</i>	Lobby 1.302 – Paulinerkirche <i>(Chair: Dela-Dem Doe Fiankor)</i>
17:00 – 18:00		Poster Session 1A Sustainable Agriculture and Resilience	Poster Session 1B Consumer Behavior and Market Dynamics in Food Systems
	17:00	Jizhe Wang (<i>Lanzhou University</i>) – The Impacts of Subsidies on Household Development Resilience of Pastoralists Under Climate Shocks	17:30 Minhao Yan (<i>Cornell University</i>) – Signaling Impacts of Food Safety Label on Fresh Produce Demand
	17:05	Victor Martínez Cano (<i>Basque Centre for Climate Change</i>) – Food Security and Globalization: Impacts of Climate Change in European Food Security. A Systematic Review	17:35 Ianna Moreira-Dantas (<i>University of Göttingen</i>) – Could Consumers' Environmental Perceptions Transform Food Systems in Europe?
	17:10	Weiyue Wang (<i>Renmin University of China</i>) – Understanding the Role of Resource Bricolage in Crop-Livestock Integration: Evidence from Agro-Pastoral Interfaces in China	17:40 Brianne Andrea Altmann (<i>University of Göttingen</i>) – Consumer Preferences for Alternative Short Supply Chain Attributes of Local Cultural Products: The Case of North Sea Brown Shrimp in Germany
	17:15	Lisa Vanderheyden (<i>Université Catholique de Louvain</i>) – Scaling Up Soil Carbon Monitoring: The Cost-Effectiveness of Direct Measurement vs. A Model-Based Approach	17:45 Md Shahin Alam (<i>Hajee Mohammad Danesh Science and Technology University</i>) – Navigating the Rise of A2 and Desi Milk in Urban India: Production, Sales and Consumer Perspectives
17:20	Sudeh Dehnavi (<i>ENRoot GmbH</i>) – National Food Security at the Cost of other Nations: The Case of Germany and its Trade Partners		

19:00 – 23:00 **Joint Dinner at Bullerjahn Restaurant**
Address: Markt 9, 37073 Göttingen

End of day 1

Day 2 – Wednesday 18, 2024

		Room 1.501.1 – Paulinerkirche
		Plenary Session 3 <i>(Chair: Liesbeth Colen)</i>
9:00 – 10:00		Keynote 5: Agnes Quisumbing (<i>Senior Research Fellow, Poverty, Gender and Inclusion, IFPRI</i>) Minding the Gap: Measurement challenges in the gender and food systems framework
		Keynote 6: Ferne Edwards (<i>Research Fellow, Centre for Food Policy, City, University of London</i>) The Missing Piece? The Role of Urban Food Actions for Food System Transformation

Day 2 – Wednesday 18, 2024

10:00 – 10:30

Coffee break –Lobby 1.202 – Paulinerkirche

Parallel Sessions 4

Room 1.501.1 – Paulinerkirche
(Chair: Karen Arcia)

Room 1.201 – Paulinerkirche
(Chair: Sukanya Basu)

Room 1.207 – Paulinerkirche
(Chair: Marlene Wätzold)

Room 0.110 – Heyne-Haus
(Chair: Sophie-Dorothe Lieke)

Session 4A | Gender and empowerment

David Zingwe (*University of Malawi*) – Smallholder Farming Commercialization and Food Security in Malawi: Do Land Rights and Intra-household Bargaining Power Matter?

Simone Santalucia (*University of Göttingen*) – Gender Gaps in Autonomy Over Intra-Household Resources in Peruvian Cocoa Farming Households

Marlene Kionka (*University of Göttingen*) – Gender Aspects and Sustainable Land Management Practices: A Path Modelling Analysis for Germany

Rachel Voss (*IFPRI*) – Agency & Behavior Change in Agri-Food Systems Transformation – A Review of Agroecology Initiatives

Session 4B | Farmer Preferences and Identities

Sara Burrone (*FAO*) – Understanding Farmers’ Willingness to Adopt High-Value Crops in Bhutan – A Discrete Choice Experiment

Mohammed Hussien Alemu (*University of Copenhagen*) – Willingness to Adopt Insect Farming in Africa Is Associated with Risk Attitude and Perceived Benefit: Evidence from Three Countries

Elsa Varela (*University of Göttingen*) – Farmers’ Identities in Sustainable Food Systems: Exploring Their Components in Diverse Farming Systems

Panrawee Praditsorn (*University of Bonn*) – Understanding Supports for and Barriers to Collaborating the School Lunch Programme and Local Farms in Chiang Mai Province, Thailand: A SWOT Analysis

Session 4C | Sustainability Standards

Hens Runhaar (*Utrecht University*) – Sustainable Food System Transformation in the Netherlands: A Multi-Level Perspective

Bruno Paz (*University of Göttingen*) – Strengthening Rwandan Coffee Agriculture: The Effect of Information Sources on Development Resilience

Eva Boonaert (*University of Leuven*) – Price Stability or Volatility? The Role of Certification in Peruvian Food Commodity Markets

Janne Bemelmans (*University of Leuven*) – Voluntary Sustainability Standards and Their Welfare Effects: The Importance of Operationalization in the Indonesian Cocoa Sector

Session 4D | Bridging Consumer Intentions and Actions

Vanideh Baradaran (*University Canada West*) – From Intentions to Actions: Unraveling the Cultural and Consumption Value Dynamics of Consumer Behavior Towards Sustainable Products

Yu Jiang (*Southwestern University of Finance and Economics*) – Is the Treatment Effect Obtained from Within, Between, or Mixed Group Experiments the Same? A Real Auction Experiment About Consumers’ Preference on Carbon-Neutral Milk

Malin Büttemeier (*Thünen-Institut*) – Sustainability Assessment of Food Waste Reduction Measures in a German University Canteen

Dominic Lemken (*University of Bonn*) – Forced Active Choice or Default Nudging? A Cafeteria Field Study on Decreasing Meat Portion Sizes

10:30 – 11:50

Parallel Sessions 5

Room 1.501.1 – Paulinerkirche
(Chair: Simone Santalucia)

Room 1.201 – Paulinerkirche
(Chair: Elsa Varela)

Room 1.207 – Paulinerkirche
(Chair: Wisnu Harto Adiwijoyo)

Room 0.110 – Heyne-Haus
(Chair: Margherita Squarcina)

Session 5A | Gender and Nutrition

Giulia Malevolti (*Potsdam Institute for Climate Impact Research*) – Agroforestry and Household Nutrition in Southern Madagascar: Does Gender Matter?

Session 5B | Informative Transforming Access and Social Justice

Claudia Coral (*Humboldt University*) – Re-Conceptualising Food Fraud Vulnerability Within a Social Justice Frame: Preserving the Authenticity of Spanish Honey

Parallel Session 5C | The complexity of Sustainability-Labeling

Benedikt Brand (*University of Bayreuth*) – Mapping the Sustainability Labels Jungle in the Food Context: Consumers’ Preference of Label (Type)

Session 5D | Food System

Claudia Hunecke (*Potsdam Institut for Climate Impact Research*) – Transformation of the Global Food System: The Holistic Approach of the Food System Economics Commission

11:50 – 13:10

	<p>Sophia Bohn (<i>University of Göttingen</i>) – Cultivating Change: Exploring the Link Between Certification, Dietary Quality, and Women’s Empowerment Among Coffee Farmers in Rwanda</p> <p>Habibou Ibrahim Kassoum (<i>University Clermont Auvergne</i>) – Linking Armed Conflicts and Children Undernutrition in Nigeria: The Mitigating Effects of Maternal Bargaining Power</p>	<p>Jinghan Chen (<i>University of Manchester</i>) – Information Crowding and the Value of Food Labels: An Experiment on Preferences for Environmental and Health Traits</p> <p>Chiara De Tomassi (<i>Basque Centre for Climate Change</i>) – Assessing Food Consumption Patterns in Spain Towards LCA of Diets: Pathways for a Just Transition</p> <p>Thibaut Arpinon (<i>University of Göttingen</i>) – Eating Informed: The Impact of Animal-Based Food Information on Carbon Offsetting Choices</p>	<p>Sandra Ullrich (<i>University of Göttingen & Wiesbaden Business School</i>) – More Is Not Always Better, But When Is It? Investigating the Influence of Label Complexity on the Effectiveness of Sustainability Labels</p> <p>Dorothea Meyer (<i>University of Göttingen</i>) – Climate vs. Eco Labeling on Food – Do Information Matter? An Online Survey Experiment</p> <p>Maiken Maier (<i>Bern University</i>) – The Limited Role of Carbon Food Labels in Shifting Food Demand Toward Planetary Health Diets</p>	<p>Achraf Mamassi (<i>University Paris-Saclay</i>) – Assessment of Trade-Offs Associated to the Achievement of National or Regional Food Self-Sufficiency</p> <p>Minhao Yan (<i>Cornell University</i>) – Risk Management Strategy of Food Safety: The Case of the US Fresh Produce Supply Chain</p>
13:10 – 14:10	Lunch – Lobby 0.216 – Paulinerkirche			
14:10 – 15:10	Parallel Poster Session 2			
	Entrance Hall – Paulinerkirche (Chair: Achim Spiller)		Lobby 1.302 – Paulinerkirche (Chair: Stephan von Cramon)	
	Poster Session 2A Social Impact and Equity in Food Systems	Poster Session 2B Power and Governance in Food Systems		
	<p>14:10 Samuel Siewers (<i>University of Göttingen</i>) – The China Shock and Structural Transformation: The Case of Soy in Brazil</p> <p>14:15 David Zingwe (<i>University of Malawi</i>) – Gender Differences and the Welfare Effects of Food Crop Commercialization in Malawi</p> <p>14:20 Lesley Macheka (<i>Marondera University of Agricultural Sciences and Technology</i>) – Urban Agriculture and its Contribution to Household Food and Nutrition Security</p> <p>14:25 Olga Samoylova (<i>Independent Sustainability Practitioner</i>) – The Community Food Store – A Case Study of the Local Social Impact Initiative</p>	<p>14:35 Felix Bröcker (<i>Max Rubner-Institut</i>) – Strengthening Social Perspectives in Sustainability Transformation of Food Systems</p> <p>14:40 Thomas Addoah (<i>University of Cambridge</i>) – Assessing the Potential Effectiveness and Equity of Companies’ Forest-Focused Supply Chain Policies in the Cocoa Sector of West Africa</p> <p>14:45 Tinoush Jamali Jaghdani (<i>IAMO</i>) – The Symptoms of Food Self-Sufficiency Ideology in the Food System and Its Effects on Food Security-Water Insecurity Nexus in Iran</p> <p>14:50 Abed Al Kareem Yehya (<i>University of Kassel</i>) – Transforming Lebanon's Food System: A Collaborative Approach for SDGs and Agenda 2030</p>		
15:10 – 15:30	Coffee Break – Lobby 0.216 & Lobby 1.202 – Paulinerkirche			

Day 2 – Wednesday 18, 2024

World Cafés					
	Room 1.501.1 – Paulinerkirche	Room 1.201 – Paulinerkirche	Room 1.207 – Paulinerkirche	Room 0.110 – Heyne-Haus	Room 0.101 – Heyne-Haus
15:30 – 16:50	<p>Standards and Labels</p> <p><i>Moderators: Marlene Wätzold, Petros Mkandawire</i></p> <p>Certification systems often emphasize strict compliance with standards to ensure uniformity and high quality, creating trust for consumers. However, does this approach overlook local practices and exclude small-scale producers?</p> <p>In this world café, we will explore the feasibility of certification systems with standards adapted to local realities, and discuss the implications for sustainability and equitable development.</p>	<p>Meat and Animal-Source Products</p> <p><i>Moderators: Jasmin Wehner, Ainslee Erhard</i></p> <p>Despite a long history of animal-source foods (ASF) consumption, many people have begun to look for alternatives to traditional ASF consumption and have advocated for a change in the composition of our diet. However, what could happen if the entire industry suddenly ceased to exist?</p> <p>In this world café, we will take a closer look at the challenges posed by an ASF-free diet.</p>	<p>Resilience of food systems</p> <p><i>Moderators: Bruno Paz, Margherita Squarcina</i></p> <p>The term "resilience" is widely used, but lacks a clear and agreed-upon definition, making it difficult to transfer it into a measurable index. Despite this ambiguity, donors and development agencies are increasingly investing in resilience practices and programs.</p> <p>In this world café, we will explore the concept of resilience, how it can be measured, and how it differs from related concepts like sustainability and vulnerability.</p>	<p>Technology and Innovation</p> <p><i>Moderators: Sukanya Basu, Luisa Müting</i></p> <p>Innovations in agriculture promise greater efficiency and productivity. However, to what extent are they available to smallholder farmers, especially in developing regions? How do we make agricultural innovation more inclusive?</p> <p>In this world café, we will analyze the barriers to access and adoption of agricultural innovations by smallholder farmers. From the role of traditional knowledge to the role of public policies.</p>	<p>Food Loss and Waste – FLW</p> <p><i>Moderators: Liesbeth Colen, Adriana Bernal-Escobar</i></p> <p>About one third of the world's food is lost or wasted. Not only do these losses and waste account for around 24% of food-related greenhouse gas emissions, but they also imply a misuse of resources (land, water, inputs, energy). Reducing food loss and waste is crucial. SDG target 12.3 aims to halve per capita global food waste and reduce losses by 2030.</p> <p>In this world café, we will analyze some of the questions that arise around the target of reducing FLW.</p>
16:50 – 17:10	Closure – Room 1.501.1 – Paulinerkirche				
End of day 2					
17:30 – 19:30	Guided City Tours
