**Regulations on the Entry Requirements
for the Doctoral Programme for Obtaining the Degree of 'PhD'
at the Faculty of Theology of the University of Göttingen**

§ 1 Scope and commencement of studies

(1) In accordance with the following provisions, the University shall implement an internal procedure to determine the entry requirements for all available places on the Doctoral Programme for Obtaining the Degree of 'PhD' at the Faculty of Theology (hereinafter: PhD programme).

(2) The PhD programme commences at the start of both the winter and summer semesters.

§ 2 Selection Committee

(1) To prepare for the selection decision, the Faculty of Theology at the University shall establish a Selection Committee for this degree programme.

(2) ¹The Selection Committee shall consist of the Dean of Studies, three members of the group of university lecturers and one research assistant holding a doctorate, as well as, in an advisory capacity, one student from the PhD programme; until 30 September 2027, a student from the *Promotionsstudiengang 'Theologie'* may also serve as an advisory member. ²The members from the groups of the university lecturers, research assistants and students, as well as their representatives, are nominated by the respective group representatives on the Faculty Council of the Faculty of Theology. ³The term of office for members is two years; that of the student member is one year. ⁴Reappointment is possible. ⁵The Selection Committee has a quorum if at least three members with voting rights are present.

(3) The tasks of the Selection Committee are:

- a) to check incoming admission applications for formal correctness,
- b) to examine and, where necessary, assess the entry requirements,
- c) to decide on the acceptance or rejection of applicants.

§ 3 Entry requirements

(1) ¹Applicants must provide evidence of having successfully completed at least a Master's, Diploma or Magister degree programme, or an equivalent degree programme leading to a state examination, or a programme equivalent to these at a higher education institution belonging to one of the Bologna signatory states, in

- a. Theology or
- b. Religious Education (with a further subject for teacher training) or
- c. a sub-discipline of theology or
- d. a subject which, in accordance with subparagraph 2, is academically compatible with a subject taught at the Faculty of Theology.

²The standard duration of the previously completed degree programme must be at least eight semesters; in the case of a consecutive Master's programme or an equivalent degree programme, it must be at least one year, with a total duration of at least eight semesters and evidence of a total of at least 240 credit points. ³Deviating from sentences 1 and 2, the entry requirement is also met by those who can provide evidence of having successfully passed the *Erste theologische Prüfung* in one of the member churches of the *Evangelische Kirche in Deutschland* (EKD). ⁴Final examinations passed in a country outside the Bologna signatory states require a determination of equivalence with the qualifications referred to in sentence 1, taking into account the recommendations of the *Zentralstelle für ausländisches Bildungswesen* (ZAB) at the *Sekretariat der Ständigen Konferenz der Kultusminister der Länder in der Bundesrepublik Deutschland* (KMK) for the recognition and assessment of foreign educational qualifications, which are set out at the URL <http://www.anabin.de>. ⁵The marks on foreign educational qualifications must be converted to the German grading system. ⁶The Selection Committee shall determine equivalence to the qualifications referred to in sentence 1.

(2) ¹The Selection Committee shall determine whether a subject, within the meaning of subparagraph 1, sentence 1, point d, and fourth sentence, is academically compatible with a subject taught at the Faculty of Theology. ²In particular, subjects from the fields of Ancient Near Eastern Studies, Classical Philology, History (including art history, social history and regional history), Sociology, Philosophy and Ethics are compatible.

(3) ¹Applicants whose first language is not English must demonstrate sufficient proficiency in English. ²Sufficient proficiency in English must be demonstrated by achieving the minimum required score in an internationally recognised test or by equivalent results:

(4) ¹Deviating from subparagraph 3, anyone with sufficient knowledge of the German language is also eligible for admission. ²Applicants who neither hold a German university entrance qualification nor have obtained a Bachelor's or Master's degree, or an equivalent qualification, in a German-language degree programme at a German higher education institution must provide evidence of this in accordance with the examination regulations for the German Language Examination for University Admission (*Deutsche Sprachprüfung für den Hochschulzugang* [DSH]) by sitting an examination with an overall result of DSH-2. ³Applicants who, in accordance with the examination regulations for the German Language Examination for University Admission (DSH) at the University of Göttingen, are exempt from the German Language Examination for University Admission are freed from the obligation to sit a test; this applies in particular to applicants who have demonstrated the required knowledge of the German language by successfully passing the 'Test of German as a Foreign Language' ('*Test Deutsch als Fremdsprache*' [TestDaF]) at TestDaF Level 4 (TDN 4) at least four times, or by passing the '*Prüfungsteil Deutsch*' of the assessment examination at a *Studienkolleg*.

(5) ¹A further entry requirement is that the degree referred to in subparagraph 1 must have been obtained with a final grade of at least 'good' (2.5). ²Deviating from sentence 1, the entry requirement is also met by anyone who can demonstrate that he/she holds a degree as referred to in subparagraph 1 and possesses the specific aptitude for the PhD programme. ³In this case, special aptitude is demonstrated by an exposé to be submitted by the applicant. ⁴The decision is taken by the Selection Committee on the basis of a written assessment by a reviewer, who must not be the applicant's supervisor. ⁵The assessment and the decision are based on the following aptitude criteria:

(6) ¹A further requirement is a written declaration from a person authorised to conduct examinations* in the intended doctoral subject area, stating that

- a) this person will accept and supervise the applicant should the applicant be admitted as a doctoral candidate, and can ensure that the supervision is carried out in accordance with the regulations (confirmation of supervision), and

§ 5 Notice of admission, notice of rejection
