

DR. KNOELL CONSULT GmbH was founded in 1996 in Mannheim, Germany, with offices in Mannheim, Leverkusen and Wageningen as well as subsidiaries in Basel, Cardiff, Bristol and Shanghai. With more than 200 employees, we offer independent consultancy to the Agrochemical, Chemical and Pharmaceutical Industries.

Our main focus is to register agrochemicals, bio-cides, industrial chemicals and pharmaceuticals.

Our services include the evaluation of data completeness, compilation and assessment of raw data, preparation of risk assessments and dossiers for submission to the relevant authorities.

To support our team in Mannheim or Leverkusen we are currently seeking an

## **Environmental Scientist / Environmental Modeller (m/f) – Ref. 2012-05**

### **Role and Responsibilities:**

- ▶ Predict the fate and behaviour of chemicals in the environment
- ▶ Use simulation models to calculate environmental concentrations
- ▶ Develop risk assessment solutions for our clients, including higher-tier approaches
- ▶ Report results in compliance with registration requirements for agrochemicals
- ▶ Prepare assessment reports and dossiers
- ▶ Build-up, maintain and share practical knowledge in a growing, strongly team-oriented working group
- ▶ Represent the working group and company at conferences and workshops
- ▶ Establish network within industry, authorities and academia

### **Profile and Qualifications:**

- ▶ Working experience in exposure modelling and risk assessment for chemicals
- ▶ Computer simulation and modelling experience in regards to environmental fate and chemical behaviour and risk assessment
- ▶ Previous project leading/management experience
- ▶ PhD or comparable qualification would be an asset
- ▶ Good interpersonal skills
- ▶ Ability to work in a team and self-motivated
- ▶ Excellent communication and presentation skills
- ▶ Excellent language skills in English (spoken and written); additional language skills (German or other) would be an asset

### **Benefits:**

You will be working with a high degree of responsibility and independence in a modern, professional, fast growing internationally active organization.

### **Location:**

Mannheim or Leverkusen, Germany

Please submit your complete application in English or German, including a detailed Curriculum Vitae, salary expectation and availability, to the following address:
