Faculty of Economic Sciences:

Following the resolution of the Faculty Council of the Faculty of Economic Sciences dated 08.02.2023, the Presidential Board of the Georg-August-Universität approved the twenty-first amendment to the examination and study regulations for the consecutive Master's degree programme "Development Economics" on 24.04.2023 in the version published on 30.03.2012 (Official Announcements I no. 11/2012, p. 423), last amended by resolution of the Presidential Board on 28.09.2022 (Official Announcements I no. 44/2022, p. 870), approved (§ 44 section 1 sentence 2 NHG in the version of the announcement dated 26.02.2007 (Nds. GVBl. p. 69), last amended by Article 7 of the Act dated 23.03.2022 (Nds. GVBl. p. 218); § 37 section 1 sentence 3 no. 5 b NHG, § 44 section 1 sentence 3 NHG).

Examination and study regulations for the consecutive Master's degree programme "Development Economics" at the University of Göttingen

§ 1 Scope and faculties involved

(1) The provisions of the "General Examination Regulations for the Bachelor's and Master's degree programmes and other degree programmes offered at the University of Göttingen" (APO) as well as the "General examination and study regulations for Master's degree programmes at the Faculty of Economic Sciences" apply to the consecutive Master's degree programme "Development Economics" at Georg-August Universität Göttingen.

(2) These regulations stipulate the additional provisions for the Master's degree programme.

(3) ¹The Master's degree programme "Development Economics" is offered jointly by the Faculty of Economic Sciences and the Faculty of Agricultural Sciences. ²Umbrella faculty is the Faculty of Economic Sciences. ³The degree programme is taught in English.

§ 2 Aim of the qualification

(1) ¹The English-taught Master's degree programme "Development Economics" prepares graduates for a career in science as well as government or non-government organisations concerned with development cooperation. ²The degree programme is research-oriented and, aside from the general aims of the Master's programme defined in the RPO-MA, conveys methodological and theoretical knowledge of economics and agricultural economics, which enable graduates to comprehend and critically evaluate scientific literature in order to answer complex questions of micro- and macro-development economics as well as agricultural

economics. ³Depending on the chosen area of specialisation, students deal intensively with contemporary empirical literature in development and political economics, methods of causal inferencing and poverty and inequality research; or else they advance their knowledge and skills with regard to the functional dynamics of global agricultural markets, rural development, and the evaluation of interventions and policies in agricultural societies. ⁴Moreover, the students' creation of an individual area of specialisation composed of compulsory elective modules and elective modules is possible and encouraged; the broad offer of courses allows students to specialise in methodology (econometrics/statistics), certain sub-fields of development economics like gender, health, education or behavioural economics, or to acquire special knowledge on the development, history and language of individual regions (e.g., Latin America, Africa, India). ⁵Compulsory modules as well as the master's thesis are designed to convey and advance students' knowledge and skills in the practice of independent scientific work; furthermore, the potential participation in research projects through fieldwork visits abroad allows students first insights into empirical development-economic research and specifically into the collection and evaluation of primary field data.

(2) ¹The competences thus acquired prepare graduates of the Master's degree programme "Development Economics" for many different tasks in elevated positions: to work as planners and advisors for the implementation of policies in development cooperation in national government organisations; to evaluate such policies in research and evaluation institutions; to investigate the efficiency of development aid on behalf of national and international donor organisations; to plan, organise and implement interventions for the improvement of living situations of people living in underdeveloped regions, working for non-government organisations; to analyse markets of developing and emerging countries, working in banks, insurances and rating agencies; or to conduct doctoral studies and more in development economics at renowned universities in Germany and abroad. ²Typical employers for graduates of the Master's degree programme "Development Economics" include national institutions within development cooperation (GIZ, KfW or BMZ), international organisations (World Bank, UN bodies like FAO, WHO, UNICEF and others), or regional development banks, global think tanks like ODI as well as private non-government organisations.

§ 3 Recommended prior knowledge

¹In the Master's programme, it is very beneficial in particular to have established knowledge of the English language, mathematics, statistics and computer skills. ²Students whose credits in mathematics and statistics were not better than satisfactory in the course of their preliminary studies, and whose English and/or computer skills are low, are recommended to qualify themselves appropriately before taking on the Master's programme.

§ 4 Structure of the academic programme, contents of study and course of studies

(1) ¹The 120 C to be completed in the Master's degree programme in Development Economics in a standard period of study of four semesters are made up as follows:

1. Compulsory part of the programme	18 C
2. Compulsory elective subjects I	6 C
3. Subject-specific specialisation	12 C
4. Compulsory elective subjects II	36C
5. Elective area	18 C
6. Master's thesis	30 C

²The compulsory modules, elective compulsory modules and elective modules to be completed are specified in the module overview (appendix 1).

(2) ¹Admission to write the master's thesis is conditional upon earning 18 C from the compulsory part of the programme and 6 C which shall be by successfully completing a seminar course in the compulsory elective subjects. ²Time to complete the thesis is 20 weeks.

³30 credits are awarded for successful completion of the master's thesis.

(3) ¹Study abroad for at least one semester at a foreign university is an integral part of the Master's programme "Development Economics" for students who have acquired their university entrance qualification in the Federal Republic of Germany or in a country or a region in which German is the official language. ²During the stay abroad, study and examination components with a rating of 30 C should be completed as a rule; however, completion of components with a rating of at least 18 C should be proven and provided. ³The components must correspond essentially to the qualification standard of a Master's programme and may not be part of a module exam that has been passed or pending completion as part of this degree programme before the stay abroad. ⁴Transfer of examination components can be stipulated by conclusion of a "learning agreement" before the stay abroad. ⁵Upon application, the examination board can exempt students from the obligation to stay abroad, if a stay abroad has been proven in the preceding course of study, in which at least 18 C were acquired as part of the stay abroad and used in this course of study. ⁶Exemption is also possible if the stay abroad is intended as part of the field research for the master's thesis and this is confirmed by the academic advisor for the master's thesis. ⁷Failed examination components as part of compulsory study abroad at a foreign university can be retaken at the University of Göttingen.

(4) Appendix V shows a schematic overview of the course of the Master's programme "Development Economics".

§ 5 Amendments

¹Amendments to these examination and study regulations will be decided on by the Faculty Council of the Faculty of Economic Sciences. ²Before any corresponding resolutions are passed, the Faculty Council of the Faculty of Agricultural Economy must be given suitable opportunity for deliberations.

§ 6 Double Degree with the University of Stellenbosch

(1) ¹The University of Göttingen and the University of Stellenbosch join hands to conduct a double degree programme. ²The provisions of these examination and study regulations shall apply, provided that the following does not stipulate any other procedure. ³The regulations in place at the University of Stellenbosch shall apply exclusively to the modules offered by the University of Stellenbosch.

(2) Students at the Master's programme "Development Economics" are eligible to take part in this programme in accordance with the provisions laid down in the following regulations.

(3) ¹A selection procedure will be carried out for the 5 places allocated to the students in the Master's programme "Development Economics". ²The selection committee consists of the person responsible for the Master's programme "Development Economics", the double degree coordinator and one teaching member of the faculty group at the Faculty of Economic Sciences; one member of the student body will also be included in an advisory capacity. ³The member of the faculty group and the student body will be appointed by the corresponding faculty representation on the Faculty Council at the Faculty of Economic Sciences.

(4) ¹The application for inclusion in the double degree programme must be submitted to the Dean's Office at the Faculty of Economic Sciences by no later than May 15. ²The following documents must be enclosed with the application:

- the diploma from the applicant's previous degree programme in the form of certified copies or certified English translations; in the event that a diploma has not yet been received, students must submit certification of the modules completed, the credits and the average grade, along with an assessment of the thesis completed in the previous degree course.
- modules completed in economics and/or agricultural economics in an accumulated scope of at least 60 credits;
- modules completed in economic theory, agricultural economics and development economics in an accumulated scope of at least 30 credits;
- a written presentation in the English language, detailing the applicant's motivation for inclusion in the double degree programme and the aims of his or her studies and
- a curriculum vitae in tabular form and in the English language, detailing concisely the educational path that demonstrates which practical professional skills and other specialist qualifications or periods spent abroad the applicant is able to present.

(5) The selection committee in the degree programme makes its selection on the basis of the following criteria.

a) The following qualifications for entry shall apply:

- aa) The grade for the thesis in the previous degree programme must be at least 2.50;
- bb) The overall grade in the modules completed in economics and/or agricultural economics with an accumulated scope of at least 60 credits must be at least 2.50;
- cc) Knowledge accumulated in modules in development economics and agricultural economics must be proven with a scope of at least 10 C.

b) Selection of the applicants who are eligible in accordance with the criteria laid down in a) will take place on the basis of a points scale. These points will be awarded according to the following criteria.

aa) Current average grade in the degree programme that is the basis for the application (maximum 8 points):

Grade	Points
1.00	8
more than 1.0 up to and including 1.3	7
more than 1.3 up to and including 1.7	6
more than 1.7 up to and including 2.0	5
more than 2.0 up to and including 2.3	4
more than 2.3 up to and including 2.5	3

bb) Letter of motivation (maximum 4 points)

The motivation is	Points
entirely convincing	4
very convincing	3
convincing	2
less convincing	1
not convincing	0

cc) Average grade in the modules completed in the field of development economy and agricultural economy (max. 4 points):

Grade	Points
1.0 up to and including 1.7	4
more than 1.7 up to and including 2.0	3
more than 2.0 up to and including 2.3	2
more than 2.3 up to and including 2.5	1

The points earned through Letters aa), bb) and cc) are added together. In the event of equal points, the grade from the Bachelor's degree or an equivalent degree will be deemed decisive; if rank equality persists, the decision will be made by drawing the lots.

(6) ¹Students spend the first semester (winter semester, lecture period: October to February) at the University of Göttingen and the following academic year (lecture period: February to May and July to October, completion of the Master's thesis: November to March) at the University of Stellenbosch. ²By way of derogation from sentence 1, the semester required to complete the master's thesis can also be spent at the University of Göttingen. ³The students spend the fourth semester at the University of Göttingen. ⁴This results in the following structure of studies:

- | | |
|--|------|
| 1. Advanced economics (Göttingen) | 30 C |
| 2. Studies abroad (Stellenbosch) | 30 C |
| 3. Master's thesis (Göttingen or Stellenbosch) | 30 C |
| 4. Specialised degree programme (Göttingen) | 30 C |

⁵The precise structure of studies and the electable modules are listed in appendix II.

(7) ¹Examinations for modules that were not successfully completed can be repeated at the partner university also. ²In this, the examination regulations issued by the university offering the module shall apply; examiners at the university offering the module shall also evaluate the examinations.

(8) ¹All students participating in the double degree programme with the University of Stellenbosch must successfully complete their master's thesis with a scope of 30 C. ²The academic advisers for the master's thesis will be one examiner at the University of Göttingen and one examiner at the University of Stellenbosch. ³The master's thesis must be written in English. ⁴In the event that the master's thesis is completed at the University of Stellenbosch, the examination regulations in force at the University of Stellenbosch shall apply to admission, supervision and assessment. ⁵The academic adviser, resp. the evaluator from Göttingen must be an authorised examiner at the University of Göttingen; following notification by the University of Stellenbosch, they are appointed by the Examinations Office at the Faculty of Economic Sciences. ⁶In the event that the master's thesis is completed at the University of Göttingen, the examination and study regulations in force there shall apply. ⁷In such cases, the regulation given in § 4 section 2 sentence 1 does not apply, that is, the successful completion of the seminar from the compulsory elective subjects is not required for the admission to the master's thesis.

(9) Following successful completion of the master examination, the University of Göttingen awards the university degree "Master of Science (M.Sc.)" and the University of Stellenbosch awards the university degree "Master of Commerce (MComm)".

(10) ¹Each university will issue a degree certificate for the university degree they award, whereby the two degree certificates are integrated in such a way as to represent one single degree certificate in terms of content. ²The degree certificate can only be issued in an integrated form. ³The University of Göttingen issues the degree certificate in the English or on request the German language with the date of certificate; in addition to stating the degree programme, the degree certificate also specifies the bi-national structure.

(11) ¹The two university degrees can be listed as separate titles. ²In the event that both university degrees are listed as titles, they shall be connected by a hyphen; the same applies to the abbreviated form. ³This does not affect the statutory provisions concerning the use of titles from foreign universities.

§ 6 a Double Degree with the University of Florence

(1) ¹The University of Göttingen and the University of Florence join hands to conduct a double degree programme. ²The provisions of these examination and study regulations shall apply, provided that the following does not stipulate any other procedure. ³For examination and study components that are offered by the University of Florence, the provisions of the University of Florence apply exclusively.

(2) Students at the Master's programme "Development Economics" are eligible to take part in this programme in accordance with the provisions laid down in the following regulations.

(3) ¹A selection procedure is conducted for the 5 seats available at the University of Göttingen each year for students of the Master's degree programme "Development Economics". ²The selection committee consists of the person responsible for the Master's programme "Development Economics", the double degree coordinator and one teaching member of the faculty group at the Faculty of Economic Sciences; one member of the student body will also be included in an advisory capacity. ³The member of the faculty group and the student body will be appointed by the corresponding faculty representation on the Faculty Council at the Faculty of Economic Sciences.

(4) ¹The application for inclusion in the double degree programme must be submitted to the Dean's Office at the Faculty of Economic Sciences by no later than May 15. ²The following documents must be enclosed with the application:

- the diploma from the applicant's previous degree programme in the form of certified copies or certified English translations; in the event that a diploma has not yet been received, students must submit certification of the modules completed, the credits and the average grade, along with an assessment of the thesis completed in the previous degree course.
- Proof of achievement in Macroeconomics, Mathematics, Statistics, Econometrics, Agricultural Economics, Economic Geography and Economic History to the extent of a total of at least 60 credits;

cc. Modules from the languages offered by the university can be selected, provided they are modules which are for a level equivalent to level B as per the Common European Framework of Reference of Languages (CEFR), and provided the modules have not been used in a course of study already completed. Notwithstanding sentence 1 modules relating to English as well as the mother tongue of the student are excluded.

dd. Students who acquired their university entrance qualification neither in the Federal Republic of Germany nor in another country or region in which German is the official language and for whom the degree programme that represents the basis for entry into the Master's programme "Development Economics" was not completed in the German language can also acquire 12 C in the elective area by successfully completing the modules offered in the programme "German as a foreign language". However, this does require verification of skills equivalent to "Basic level III" (A.2.1).

b. In the elective area, modules (alternative modules) other than those mentioned can be completed in accordance with the following provisions. Prerequisite for the consideration of an alternative module is:

aa. A written application to be handed in by the student to the Dean of the Faculty of Economic Sciences before choosing the alternative module;

bb. Approval by the Dean of Studies of the faculty or teaching unit offering the alternative module.

The decision on approving the application is made by the Dean of Studies of the Faculty of Economic Sciences. Before passing the decision, the Dean will obtain the opinion of the degree programme tutors on the usefulness of the module replacement in which the student is enrolled. The application can be rejected without stating any reasons; a legal right of the applicant to object the decision does not exist. The consideration of an already completed module as an alternative module is excluded.

6. Master's thesis (30 C)

30 C are awarded for successful completion of the master's thesis.
