- (3) ¹If the number of applicants who meet the qualifications for entry exceeds the available university places, the University shall award the places based on the results of its own

selection procedure. ²If the number of applicants who meet the qualifications for entry falls short of the available places, no selection procedure shall take place.

II. Authorisation for admission

§ 2 Qualifications for entry

(1) ¹It is a requirement for entrance to the Master's degree programme that the applicant possesses the professional competence. ²Candidates are considered to have technical aptitude if they have completed a six semester course of studies with bachelor degree in a relevant subject with a scope of at least 180 ECTS credits, or an equivalent degree in a degree programme at a German university or a university domiciled in one of the Bologna signatory states, as per section 3 in the degree programme Statistics, Mathematics, Computer Science, Economics, Agricultural Economics or in a technically related subject area. ³Degree examinations that are considered equivalent to the qualifications under sentence 2 and have been passed in a country other than the Bologna Signatory States require the assessment of equivalence in consideration of the proposals by the Central Office for Foreign Education (ZAB) at the office of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany (KMK) for the accreditation and assessment of foreign proof of academic qualification that are laid down at the URL www.anabin.de. ⁴The grades of the foreign certificates of academic qualification must be converted to the German grading system.

(2) ¹Notwithstanding section 1, authorisation for admission will be in principle considered proven by applicants who have not yet completed a course of studies at the time of application, but have acquired at least 150 credits in a relevant Bachelor's degree programme as stated in section 3 or in an equivalent degree programme. ²The average grade calculated from the previous examination components is also taken into consideration in the selection procedure in place of the Bachelor grade or the grade of an equivalent certificate of academic qualification, irrespective of whether the result of the Bachelor's examination deviates from this.

(3) ¹The decision as to whether a preliminary course of studies is relevant within the meaning of sections 1 to 2 shall be made by the selection committee. ²Requirement for subject relevance of the undergraduate degree is the proof of at least the following components:

³Subject relevance is assessed on the basis of the documents to be submitted along with the application as well as suitable criteria, such as the teaching contents, the used literature, the

module prerequisites, the study and examination regulations and the schedule of the degree programme, in which the component was accomplished. ⁴The selection committee may require the completion of pending examination components under sentence 2 within two semesters for assessing the subject relevance; in this case, assessment of subject relevance and the entry is subject to termination until proof of the pending examination components, which should be submitted within two semesters from the time of enrolment at the University (final deadline). ⁵If proof of the pending examination components is not submitted by the deadline, the assessment of the relevance of the subject and any letter of admission based on this shall become ineffective. ⁶Assessment of the relevance of the subject shall not be possible if the components in accordance with sentence 2 that have not yet been performed have a rating of more than 15 credits.

(4) ¹Applicants, who neither meet a German university entry requirement nor have acquired their Bachelor's degree or an equivalent degree at a German university, must show sufficient proficiency in the German language. ²Proof hereof is demonstrated by means of a test with the grade point average DSH-2 in accordance with the examination regulation for the German language test for university admission of foreign prospective students (DSH). ³The obligation to take the test need not be met by applicants, who are exempted from the German language test for admission to colleges and universities according to the examination regulations for the German language test for the admission of foreign students to colleges and universities (DSH) at the University of Göttingen this applies especially to those applicants, who have proven the required German language skill through the "Test of German as a Foreign Language" (TestDaF) with at least four-times TestDaF grade level 4 (TDN 4) or the "German examination module" of the assessment test during the preparatory course.
