*"To tell a ghost story means being willing to be haunted."
Jack Halberstam*

This workshop aims to bring together students from different academic levels and backgrounds and to provide an encouraging space for discussing the challenges and joys of various steps of doing research in Queer and Trans* Studies at the University of Göttingen and ways of writing a thesis in this particular field.

There will be the opportunity to present current (or planned) thesis projects, to discuss questions regarding queer and trans* methodologies, theoretical approaches and intersectional complexities within the field, or the relevance of the individual situatedness of "the researcher". Moreover, there will be room to network and talk about experiences as a queer or trans* studies scholar/student within and outside academia.

In order to participate in the workshop please write a short email to christine.klapeer@uni-goettingen.de until the 26th of March 2021, and provide a few sentences about your thesis project and why you would like to take part in the workshop.

PLEASE NOTE: The workshops is primarily aimed at students of the Georg-August-University of Göttingen.
